Vancouver, Canada

Research Assistant

- RA of the Think, Eat, and Grow Green Globally (TEG3) project funded by the Canadian Institutes of Health Research (CIHR)

Research Vice-Rector

August 2014 – August 2016

Universidad El Bosque,

Bogotá, Colombia

Researcher - Professor

- Research advisor in Environmental Health
- Researcher at the Health, Environment and GIS group, and Human, Work, and Health research group

Exploring the Healthy Cities concept as an strategy to promote health and prevent non-communicable diseases

March 2014- July 2014

University of Antioquia–Pan American Health Organization,

Medellín Colombia

Researcher

- Designing methodology
- Data collection, analysis and report

Access to Health Care services in Medellín:

June 2013 – January 2014

An assessment and monitoring proposal.

Universidad de Antioquia – City of Medellín,

Medellín, Colombia

Researcher

- Designing methodology and research activities
- Qualitative data collection, analysis and report

**Herbicide exposure prevention study for Working for Water
Centre for Occupational and Environmental Health Research
School of Public Health and Family Medicine
University of Cape Town,
South Africa**

September 2011- July 2013

- Conduct research to understand risk perceptions of herbicides use among Working for Waters workers in the Western Cape
- Conduct research to understand cultural and social factors that might influence workers health-related behaviors.
- Collaborate in the design of a culturally appropriate interventions to reduce workers exposure to herbicides.

**Healthy lifestyle behaviors for the prevention of non-communicable diseases in the Global South
INER- ESSM (Research Unit for Exercise Science and Sports Medicine) – African Centre for Cities
Universidad de Antioquia – University of Cape Town
Researcher**

January 2012 – June 2013

- Designing methodology and research activities
- Collaborating on writing reports and projects for founders and participating institutions

**INAP
National Project for Adaptation to Climate Change
Conservation International - National Health Institute
Research Design and Implementation**

June 2010 - February 2011

- Characterize the Malaria surveillance system in a Colombian indigenous community with high risk of contagion
- Developing and conducting participatory educational programs to strengthen the National Malaria surveillance System.
